

CHILDERS

IT Management, Inc.

A Short Message From Our President

Welcome to The Childers IT Management, Inc. News!

I would like to take a minute and thank you for signing up for the first edition of The Childers IT Management, Inc. News. This edition is going to focus on informing our customers and future customers of some of our offerings and who we are. Upcoming news editions will likely focus on customer project success, current and evolving technology, and offerings that will become available to you in the future. Once again I thank you for taking the time to subscribe to our newsletter and we look forward to seeing you in editions to come.

Business and Technology Assessments

Understanding your business is what gives Childers IT Management, Inc. it's edge when it comes to your technology needs. It is our goal to be your trusted advisor and provide robust and scalable solutions for your business as it grows and moves into the future. We are able to implement such solutions by conducting Business and Technology Assessments.

These surveys and audits provide insight into how your company is currently using technology, and how you would like to use technology to conduct your operations. This peek into your business allows us to make sure that all the pieces are in place, covering day to day operations up to disaster recovery and business continuity.

Scheduling a Business Assessment is the first step in the right direction.

Visit the NEW Website:

www.ChildersITmgmt.com

As any business owner will tell you, starting a business is more than getting an office space and having the phone turned on. Having a web presence so that your customers can find out about you and your services is essential.

Once you visit www.ChildersITmgmt.com you'll want to come back time and time again. Not only will you be able to subscribe or unsubscribe to our newsletter but you can also submit a helpdesk ticket. This tool is invaluable when it comes to the success of your business. Once a helpdesk ticket is submitted, it is immediately routed to a technician who will contact you and schedule a time to correct whatever issue you

are experiencing as quickly as possible.

The website will feature news and information on upcoming events that you can use to improve your operations such as seminars and training. There will also be information on current and upcoming products that can save you time and add value to your business.

The Childers IT Management, Inc. website is your portal to the only IT company that is truly dedicated to the success of your business. We are confident that once you work with us that you will wonder why you ever worked with any other IT company in the past.

Who is Childers IT Management, Inc.

Childers IT Management, Inc. is a growing and tenacious technology firm that is dedicated to ensuring that any small business has all of the benefits and advantages that large corporations have. If you think your company is too small for an "IT Guy" then we are the perfect choice for you.

Childers IT Management, Inc. is a Microsoft Small Business Specialist Company. We have proven our ability to provide small businesses with the technical tools and training that gives them an advantage against their competition.

Childers IT Management, Inc. is partnered up with not only Microsoft but with other technology providers such as Ingram Micro, the worlds largest distributor of technology hardware and software. It is our technical know how and partnerships with strong and reputable companies that allows us to bring you the best solutions at the best prices with the absolute best service.

Stay Connected When You're Out Of The Office

The need for instant information drives business. Being out of contact can mean the difference between a signed contract and a signed contract for one of your competitors.

Today there are many different ways for you to stay in touch when you are not at your desk. Picking the right method and level of connectivity can be a real headache.

Childers IT Management, Inc can help.

Our engineers specialize in making sure that small businesses have the same advantages that

large corporations have when it comes to remote access. Hand-held PDAs and VPN access are the tools that businesses like yours can benefit from and Childers IT Management can get them running for you.

Companies with remote office locations or outside sales people can reap the benefits of having real time client information. Dissimilar data or inaccurate customer info will become a thing of the past when a solution is put into place that allows you to view inventory and customer history on the fly.

Did you know that 40% of administrators are unable to recover critical data from backup tapes? Ask about a real time backup solution that will eliminate the concerns that are associated with data protection.

Managed Services

You Run Your Business

Let Us Run Your Network

You are a business person. You don't have time to worry about how that email, sales order, or invoice is going to get to your client. All you want to know is that it is going to get there. Childers IT Management, Inc. Managed Services is your solution. With a Managed Services agreement you don't have to have an internal IT Department in order to have an IT Department.

Managed Services is an outsourced service that allows you to focus on your business while we focus on your technology needs. Then as your company grows we will be right there with you to ensure that your questions get answered. During times of crisis your data will be safe and secure. Onsite service is no longer a problem because it is included in your agreement along with telephone support and remote assistance.

With several packages to choose from you can be sure that we will be able to accommodate your business.

What is included with my agreement?

Weekly Scheduled Visits
Priority Scheduling for Onsite Service
Telephone Support & Remote Assistance

Network & Anti Virus Monitoring
Backup Monitoring & Exchange
Business Continuity Planning

Disaster Recovery Action Team
